

we are  
***the world in motion.***

We continue to grow because **we handle a world in motion.** We help businesses, cities and landscapes to change and become better. Almost eighty years of experience in the sector, a true family vocation. Anyone who has to transport, handle and lift important goods needs a single, reliable, well-equipped point of contact to take care of everything in **safety while saving resources.**

## we make ***a difference in the world.***

People and technique together for creating projects to be proud of. We handle the most famous Mega Yachts "made in Italy", **we lift** and **handle** enormous turbines requested worldwide, **we build** massive structures and **we transport** majestic "oversized" loads. Multinational companies in Italy and local businesses put their trust in us. And together we make a difference.

just us  
***for a whole host of requirements.***

**We guarantee a solution, every time!**

Responsibly. We take care of every detail, from the technical on-site inspection to the planning of the intervention, the organisation of the fleet of vehicles and the adaptation of the infrastructures, from route checking to the safety measures and monitoring of the results. Transporting, handling and lifting across Europe is simple **with a single point of contact.**

## people and vehicles ***technology for people.***

**We have the knowledge and the expertise** which place us at the head of the sector. We have cutting-edge vehicle fleets and equipment and offer continual, high-level the training of technicians. We abide by the standards laid down by the Italian "Testo unico sulla Sicurezza sul lavoro" (Uniform Occupational Health and Safety Code), and often exceed them. We are **cost-conscious**, following procedures and paying attention to details. We only work with technical partners on the same professional level.

## transport, logistics and oversized loads *with national infrastructures.*

We live in a beautiful country, but one that also poses difficulties when it comes to transporting and moving goods by road. Which is why we have organised ourselves with **vehicles, infrastructures, technology, specialised and coordination** personnel who can simplify the life of our customer and make construction, industry, craftsmanship and agriculture more productive.

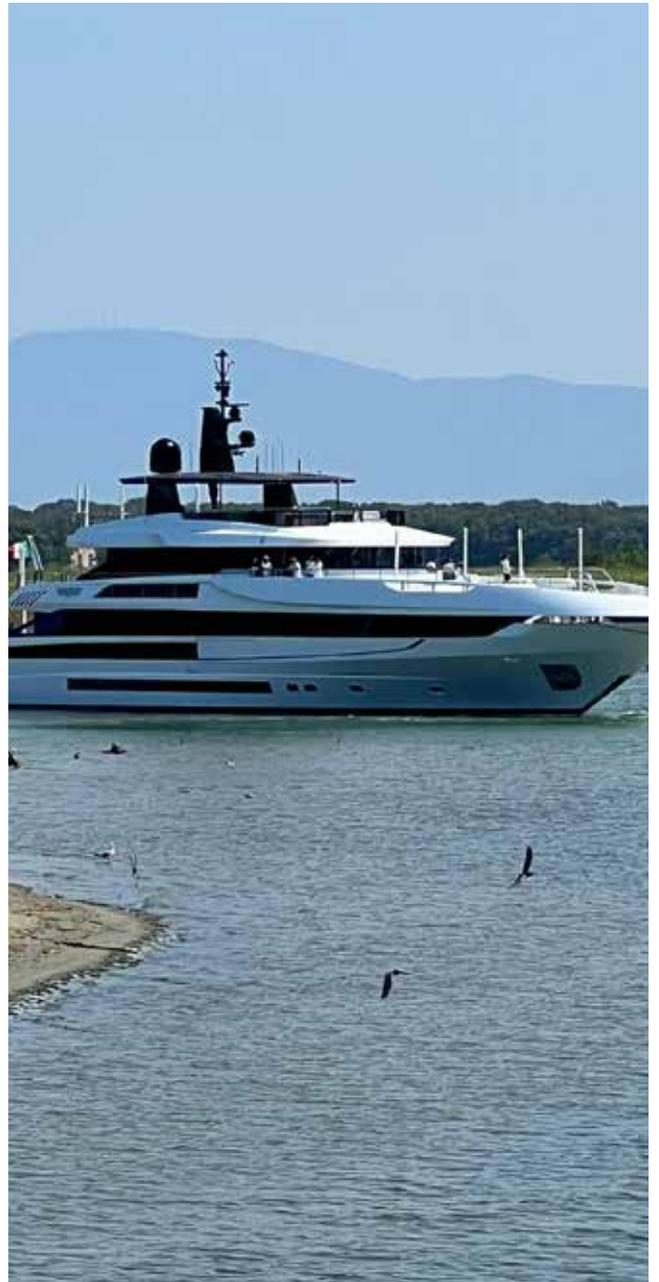

## HOW CAN WE HELP YOU?

**Complete management of oversized loads and special loads with well-equipped vehicles and logistics.**

- Exceptional transportation with motorised and modular trolleys
- Transportation of loads with articulated trucks and trailers
- Transportation of oversized loads
- Articulated trucks with crane
- Trailers and lowered deck semi-trailers
- Expandable and lowered curtain side trailers
- Permanent permits
- Technical escort services
- Documentation management

lifting,  
handling  
and hiring  
***for unlimited tonnage.***

Many of the works that have astonished mankind have challenged the forces of gravity. We are specialised in **lifting and handling oversized loads with well-equipped crane trucks.** We transport unlimited tonnage, we move materials in difficult spaces and we can safely reach great heights.

## HOW CAN WE HELP YOU?

**We manage oversized load lifts with crane trucks, aerial platforms and we support operations with technical services.**

- Crane trucks from 20 to 650 tons
- Electric and tracked crane trucks
- Hire of aerial platforms with or without operator
- Lifting of metal structures
- Loading, unloading and positioning
- Crane assembly and dismantling
- Assembly of prefabricated units
- Internal handling
- Towing and launching of yachts

## services and marine transportation ***with tugboats and barges.***

Italy is one of countries with the longest coastline in the world. We could not pass up the opportunity to handle and lift goods in this important sector. We have barges and tugboats for transportation by water as well as the instrumentation, logistical structures and full engineering support.

## HOW CAN WE HELP YOU?

**We support ship owners, maritime authorities, oil and energy companies in activities on the land and sea.**

- Boat handling
- Marine cranes
- Travel lifts
- Lifting trucks
- Motorised and modular trolleys for handling
- Trolleys for handling
- Handling equipment

**SITES IN TUSCANY, LIGURIA AND PIEDMONT**
